

**THE ACTIVE SYSTEM
OFFERS MORE.....**

than the processing of menu selections. It will also manage your dining locations on the fly, as well as early trays, late trays and impromptu between meal snacks. The Kitchen Staff will have the same work load, and the Active System will manage the entire process with very little input from you.

*This is Culture Change
without the Budget Change!*

The Active System

Culture Change with Paperless Select Menus

**With or Without the Internet,
you can offer a select menu to
all of the Residents in your
Facility WITHOUT passing out
menus, selecting and collecting
menus EVERY single week.
The Active System Select Menu
Program runs by itself, with
very little input from you or
anyone else.**

**Culture Change
at NO COST!**

The Active System Does It ALL For You

The picture above shows the online select menu that can be offered to your Residents and/or Family members through the Active System. Each Family is assigned a secure web page on the Active System website, with a username and password. It can be accessed from a computer, laptop, tablet, iPad, iPhone, Android phone, or a Windows phone. Any, and all selections they make, are automatically printed on their tray card the next time the cards are printed. A sample tray card is shown to the right.

If the Resident and Family are not inclined to use the computer or smart phone, then they or the staff can use the select menu worksheets shown below.

XYZ Facility	XYZ Facility
Breakfast Day: 1	Lunch Day:

Picture Cards offer a very powerful tool for communicating the needs of your Residents.

THE KEY TO SUCCESS

The key to a successful Culture Change program is not to throw money at the effort. You do NOT need to add staff, or incur additional food cost. The Active System saves all Resident menu selections, regardless of how those selections are obtained. Once all Resident's have selected their menus,

YOU ARE DONE!

Of course, you, or the Resident/Family can change their selections at any time, and all changes will appear on the next printout. This will be the only on-going maintenance for the entire select menu system. It will be no more work than you currently do with the updating of Resident Preferences.

You will be offering Resident's their choice of what they want to eat, wherever they want to eat it, AND whenever they want to eat.
